Model: SE-2600/SE-2600MU Firmware Release Info

May. 23, 2024

Firmware Versions

- S/W v1.3.2.1
- K/B v1.1.0

File name: se3200_se2600_USB_v1.3.2.1_kb_v175_110_boot_install

Issues

1. Enable the AA-filter function of SE-2600 to improve the MV/PIP picture quality and make the mitered sawtooth not visible.
 2. Improved the issue of slow response of KB operation when MENU is opened.
 3. Improve the problem that KB may crash when switching resolution or CKAuto.
 4. Added MENU and FTB LED indicators for the keyboard, when those two buttons are pressed, they will be lit.
