

Release Notes

Model: VTC-100

May.11, 2026

VTC-100 Firmware

- **Version: FW: 1.1.26**
 - **File name: VTC-100-V1.1.26-2026.0716.1619.img**

Issues

1. Fixed the issue that when in "Zone Tracking" mode, the camera will not trigger the "Preset Positions".
2. Fixed the issue that when the tracking target is lost, the camera lens will pan or tilt to abnormal position.
3. Fixed an issue where the subject could not be properly centered when Auto-Framing was enabled.
4. Fixed an issue where tracking zones were not cleared after performing a factory reset.
5. Fixed the slow response latency or command feedback/return code failure for the "Video sensor mode" and "Audio tracking mode".
6. Added "Video Sensor Capability" and "Audio Tracking Capability" features.)
7. Added switching delay time setting for transitions between Presenter Mode (Full Body) and Close-Up shots.
